## MANAGEMENT SYSTEMS/ ISO認証 (ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, CFO)

Our company acquired ISO 14001 and ISO 45001 by the end of 2019 to improve occupational safety and health performance, and to provide a safe and healthy workplace. We aim to become environmentally friendly company that put a priority on the global environmental concern. There are a limited number of oversea Japanese construction companies that have acquired ISO 45001. Based on this certificate, we annually be reviewed by an external audit to renew ISO certificate. In 2023, our company recently has been verified to be the organization that restricts the emission of green house gas in compliance with TGO, as we would like to take part with the world's most urgent mission to achieve carbon neutrality by 2050.
